

Nelspruit Iron and Steel

F A O : Arnold Germishuys

08 April 2017

Dear Sir,

Re: CSS Builders - Testament

I would like to thank you for the professional contract you recently completed for CSS Builders at Domza Total at the Emoyeni Shopping Centre. The contract was done timeously and the end product was excellent, and met all the required specifications. The way in which your staff interacted with CSS Builders to sort out the snags and challenges on site only installed confidence in our decision to award the tender to NIS (Nelspruit Iron and Steel).

This is not the first contract that the two companies have done together. Based on our passed working relationship and the excellent work done on this site, it certainly will not be the last.

I have absolute confidence in recommending NIS, for any structural steel contract, and have full confidence in their ability to do the work, in an efficient, and professional manner.

Yours sincerely

R S PASCOE
