TESTIMONIAL

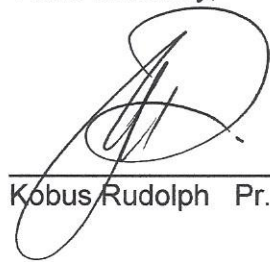

As structural engineers we have been working with **Nelspruit Iron and Steel Works CC (NIS)** on many projects over the past twenty seven years and have always been completely satisfied with their work.

Their approach to detail is demonstrated by the fact that even for the smallest project, workshop drawings would be submitted to the engineer for approval before commencement thereof.

As far as pricing is concerned **NIS** have always been very competitive.

We would therefore recommend **NIS** for any steel structure, no matter how big or small.

Yours sincerely,
